PURPOSE

Safeguard the security of persons and assets, in addition to the facilities of the Data Controller. In addition, to prevent inappropriate behaviour and, wherever applicable, dispose of evidence to undertake the appropriate actions in the case of contractual and/or legal violations. The images will be stored for a period of up to thirty (30) days from their capture. After this deadline, they will be totally deleted, except in cases when they need to be stored for more time to prove the commission of acts that threaten the well-being of persons, assets or facilities, in addition to contractual or legal violations.

DATA SECURITY

The data gathered through the CCTV system is protected by appropriate technical and organisational measures to prevent unauthorised access, alteration, disclosure, or destruction. These measures include encryption of the data during transmission, restricted access to authorised personnel only, regular audits of the system's security, and secure storage on dedicated servers. In addition, access logs are maintained to monitor any interaction with the recorded footage. The Data Controller also guarantees compliance with relevant data protection legislation and internal policies regarding data security and confidentiality.

LEGITIMATE INTEREST

Legitimate interest of the Data Controller to (i) protect persons and their assets, as well as the assets and facilities of the Data Controller; and (ii) prevent inappropriate conduct and/or dispose of evidence to undertake the appropriate actions in the case of contractual and/or legal violations.

RECIPIENTS

(i) MANGO group companies (ii) data processing companies that provide services to the MANGO group (iii) public administrations and organisations when required by the regulations.
